

Calgary & Lethbridge Web Design

Calgary is currently the largest city in the province of Alberta. Calgary is located in southern Alberta, surrounded by foothills and high plains, just east of the Canadian Rockies.

In 2007 a Forbes magazine Quality of Living survey positioned Calgary as the world's cleanest city. It is also becoming recognized as one of Canada's most diverse cities. Calgary has become a modern cosmopolitan city.

Calgary is popular destination for winter sports enthusiasts and eco-tourism, as there are a large number of mountain resorts near Calgary's metropolitan area.

Economic activity is mostly centred on the gas and oil industries. In 1947 huge oil reserves were discovered and Calgary quickly found itself at the centre of a continuing oil boom.

Many high tech companies are also contributing to Calgary's economic growth.

The Coding Studio is one of the most innovative web site design and web development companies in Calgary (and Lethbridge), Alberta. The Coding Studio is committed to excellence and building long-term relationships with their clients. Along with [Calgary web design](#), web design in Lethbridge (Calgary's close neighbour) has also has really taken off in recent years.

Web design is a collection of steps and processes including conceptualization, planning, modeling, and content delivery via the Internet. Web sites are coded with markup and scripting languages and interpreted by a web browser.

With over ten years in the industry, there are many reasons why The Coding Studio is the natural choice for Calgary and [Lethbridge web design](#). Our skills and experience put us on top of the fold, coupled with our very affordable designs and full collections of web services.
